

Belmont Elementary

Club SciKidz WINTER 2019 CLASSES

8 Weeks/\$139 on Thursdays

Time: 3:30pm to 4:30pm

February 14th- April 4th

Science K-2

-NEW! Pull Your Own Weight

Your young scientist will explore the science behind weight, mass and levers. Discover how pulleys and levers make difficult jobs easier. Your young scientist will learn about forces and fulcrums by creating pulleys, levers, catapults and cranes. Solve real world challenges by creating prototypes of these objects and testing them in class and at home!

Science 3-5

-NEW! Newton's Toybox

Discover and learn about one of the world's most accomplished scientists, Sir Isaac Newton, by creating and experimenting with the Laws of Motion. Learn about acceleration, mass, forces and momentum by engaging in races, games, and challenges that emphasize the laws of motion that give everyday tasks and cosmic interactions! Class projects include screaming balloons, high bounce balls, toy car acceleration and many more!

*If any questions, please contact Meira Meltzer, PTA Coordinator
at meiram@reztle.com or [240-390-0127](tel:240-390-0127)*
